Skills

I am an honest, hard-working person who can function both in a group as well as on my own. I am constantly looking for ways to improve and relish the opportunity of taking on new challenges.

Education

University of Iceland/ BSc Mechanical Engineering (2022)

August 2019 - Present

I am currently studying Mechanical Engineering at the University of Iceland. I have also taken some courses in Business Law and Engineering Management to broaden my horizon. In the future I aim to focus on studies related to the field of renewable energy.

Menntaskólinn í Reykjavík/ Natural sciences line -Physics

August 2015 - May 2019

Experience

Þór hf/ Spare parts department

June-July 2021

For the past two years I have worked in the spare parts department in Þór hf, an Icelandic family owned business, which specializes in sales and maintenance of construction- and farming equipment. This includes ensuring that broken machines get the correct spare parts, or proper repairs.

Computer skills

ANSYS, AutoCad, Inventor, Java, Matlab, microcomputers, Microsoft Office, Python, R

Other

This semester I enrolled to be a “mentor” in a program called Sprettur. This program focuses on helping High School students with immigrant- or refugee backgrounds find their feet in their studies, prevent social isolation and encourage them to seek further education.
